Business Development Coaching

We work with attorneys on an individual basis in business development. This may include: techniques to handle new client opportunities; consulting to improve their success rate in sales calls; targeting prospective clients; enhancing presentation skills; and personal branding/image building. These sessions can be done over the phone or in-person.

We also provide support such as: identifying and researching prospective clients; connecting with new referral sources; and drafting follow-up letters/emails to prospects or referral sources after meetings.

Public Relations & Publicity

Attorneys have limited time for public relations and publicity activities, so guidance is needed in selecting the correct techniques to promote their practice. Furthermore, ongoing support is required in order to make the process flow easily, attend to all the details, and maximize each opportunity. Our services include:

- **Professional Organizations** (organization selection, support, publicity opportunities, etc.)
- **Community Relations** (sponsorships, publicity opportunities, organization selection, etc.)
